About LouMUG

The Louisville Microsoft Users Group (LouMUG), founded in 2008, provides a regular forum for Louisville's information technology community, centering around the Microsoft ecosystem.

The group typically meets monthly at lunch, generally for a panel or presentation on a Microsoft technology or an industry trend.

LouMUG's primary goals have always been and will continue to be educational and informational, and it would not be possible without the help and generosity of its supporters.

Long-Term Partnership.
Premium Visibility.
Priority Access.
